

# HeatSmart Program of Solar Tompkins

Are you interested in the HeatSmart Program of Solar Tompkins?

The HeatSmart initiative aims to accelerate the transition of home-heating away from fossil fuels via deployment of super-efficient air- and ground-source heat pumps in combination with improvement of building efficiency through better insulation and air sealing.

- Save money on your energy bill
- Decrease your energy consumption while lowering your carbon footprint

**Tompkins Trust Company will help you finance this decision.**
